

PRELIMINARY SCIENTIFIC PROGRAM

August 20, 2009 Thursday		August 21, 2009 Friday		August 22, 2009 Saturday	
08:00-08:15	OPENING CEREMONY - INFOCUS 2009			08:00-08:40	Meeting the Professor – critical review of the Invasive Aspergillosis clinical trials. <i>Discussion and analysis of the major clinical trials in invasive aspergillosis</i> <i>Pfizer support</i>
08:20-09:00	Conference: The extraordinary spectrum of diseases caused by Aspergillus species 	08:20-09:00	Conference: Is Candida resistance to echinocandins a truly concern for the near future?	08:30-09:20	Conference: Optimizing antifungal therapy by using PK and PD parameters
09:00-10:40	Round table: Aspergillosis in uncommon clinical scenarios: a case-oriented approach  	09:00-10:40	Round table: Challenging clinical aspects of candidemia	09:20-10:30	Round Table: Diagnostic aspects of fungal infections that clinicians should care about 
10:40-11:00	Coffee-break and Poster Session	10:40-11:00	Coffee-break and Poster Session	10:30-11:00	Coffee-break
11:00-12:10	Round Table: Diagnosis of invasive aspergillosis 	11:00-12:10	Round table: New insights in endemic mycoses	11:00-12:35	Clinical cases
12:10-13:30	Satellite Symposium: United Medical - Antifungal Management: the key factors for making an informed decision 	12:10-13:30	Satellite Symposium: Merck Sharp & Dohme - Management of Invasive Fungal Infections in Hematology Settings 	12:35-12:50	Award for the best Posters
13:30-14:00	Break	13:30-14:00	Break	12:50-13:00	Closing remarks
14:00-14:40	Conference: Can we rely on imaging and biomarkers for preemptive antifungal therapy on haematological patients? 	14:00-14:40	Conference: Fusariosis: state of the art		
14:40-16:00	Round Table: Hot topics in invasive aspergillosis 	14:40-16:00	Round table: Fungal infections in AIDS patients		
16:00-16:30	Coffee-break and Poster Session	16:00-16:30	Coffee-break and Poster Session		
16:30-18:00	Satellite Symposium: Bagó	16:30-18:00	Satellite Symposium: Pizer - Ecalta, a new equinochandin
